

**REMARKS**

Claims 11, 12, 14 and 15 presently appear in this case. The present amendment is being made to correct inadvertent errors in the claims of applicant's amendment under 37 CFR 1.312 filed on January 16, 2008. In that amendment, claim 12 was indicated as being "currently amended" while it should have been indicated as being "previously presented." Furthermore, in claims 12 and 14, the format of "A3RAg", as it appeared in the preceding amendment and elsewhere in the other claims, was inadvertently changed to read "A<sub>3</sub>RA<sub>g</sub>." This was not intended and the present amendment changes the form of this term back to that used previously and as used elsewhere in the claims.

Accordingly, the amendments presented herein are for the purpose of correcting typographical or clerical errors, and, thus, are needed for proper disclosure or protection of the invention and require no substantial amount of additional work on the part of the examiner. Entry of the present second amendment under 347 CFR §1.312, as well as the previous amendment under 37 CFR §1.312 filed on January 16, 2008, are therefore earnestly solicited.

The issue fee has not yet been paid.

Respectfully submitted,
